

Semi-Permanent Eyelashes Post Treatment Advice

After Treatment

- Avoid getting them wet for up to 48 hours after application.
- Do not rub or touch your eyes.
- Clean with eyelash foam cleanser every 3 days
- Brush through your eyelash tips in the morning
- Do not use oil based products around or on the eyes
- Do not sleep on your face
- Stay on top of your infills (recommended every 2 - 3 weeks)

How Do I Clean My Eyelash Extensions?

Using a soft bristle brush and cleaning foam, clean approximately every 3 days. Getting into this habit removes traces of natural oils, dust and make-up. This prevents any build-ups causing pressure on your lashes and breaking down the bond.

Should you experience any unexpected side effects or any that concern you, please contact the clinic as soon as possible.

Please ensure you discuss your overall treatment programme with your clinician as this will enable you to receive the best results from treatment.
